Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-37 are drawn to a label comprising (A) a polymer face stock having an upper surface and a lower surface; and (B) an adhesive layer derived from at least one two-part, high solids curable adhesive overlying the lower surface of the polymer face stock, classified in class 428, subclass 343+.
- II. Claims 38-41 are drawn to a labeling process comprising the steps of (A) providing a substrate; (B) coating two-part, high solids curable adhesive to one surface or a polymeric face stock; and (C) applying the adhesive coated surface of the polymeric face stock to the substrate, classified in class 156, subclass various.

The inventions are distinct, each from the other because of the following reasons:

1. Inventions I and II are related as product (i.e. label) and process of use (i.e. labeling process). The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)).

In the instant case the process of using the product (i.e. label) as claimed can be practice with another materially different product such as an appliqué. The appliqué can be a wood veneer. Wood veneer is materially different product than a label. One

surface of the appliqué is coated with adhesive and adhesive coated surface of the appliqué is then pasted onto a substrate such as an automobile trim panel (e.g. side door or dash board).

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
3. A telephone call was made to Mr. William Tritt on April 28th 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anish Desai whose telephone number is 571-272-6467. The examiner can normally be reached on Monday-Friday, 8:00AM-4: 30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on 571-272-1478. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
